

RAHUL BAJAJ

Senior React Native Developer

Patiala, Punjab | +91 9465318843 | bajajr527@gmail.com | www.linkedin.com/in/rahul-bajaj-6646b416a

PROFESSIONAL SUMMARY

Results-driven Senior React Native Developer with 7+ years of experience building high-performance cross-platform mobile applications. Proven expertise in TypeScript, GraphQL/Apollo Client, and scalable white-label architectures. Experienced collaborating with international teams on enterprise-grade inspection and health software. Adept at optimizing app performance, leading client engagements, and delivering production-ready solutions.

TECHNICAL SKILLS

- **Mobile:** React Native (iOS & Android)
- **Languages:** JavaScript (ES6+), TypeScript
- **Data / API:** GraphQL, Apollo Client, REST
- **Databases:** Realm, Firebase Firestore, Firebase Realtime DB
- **Dev Tools:** Xcode, Android Studio, Git, Jira
- **Architecture:** White-label apps, Offline-first, Component libraries

WORK EXPERIENCE

Senior React Native Developer Dec 2020 – Jan2026

SmartData Enterprises — Mohali, Punjab

- Built and maintained scalable cross-platform mobile applications using React Native and TypeScript, serving thousands of enterprise users.
- Designed a GraphQL-based data layer using Apollo Client, reducing over-fetching and improving API efficiency by 30%.
- Optimized FlatList and SectionList rendering performance, achieving a 40% improvement in large dataset rendering speed.
- Designed and contributed to a white-label mobile app architecture supporting multiple clients with a single codebase.
- Collaborated with international engineering teams to deliver enterprise inspection software (TrackTreads) with real-time and offline-sync capabilities.

Junior React Native Developer Aug 2018 – Nov 2020

Solitaire Infosys — Mohali, Punjab

- Developed reusable, efficient React Native component libraries that reduced feature development time by ~25% across multiple projects.
- Built an end-to-end on-demand delivery ecosystem comprising customer-facing and merchant-facing mobile applications.
- Led client walkthroughs and requirements-gathering sessions, iterating rapidly on feedback to achieve full client sign-off.

KEY PROJECTS

1. VEX Fitness — Digital Fitness Platform

React Native application for fitness studios enabling members to stream on-demand and live fitness classes. Integrated scheduling, video streaming, and studio management features for a seamless member experience.

Live Url:

Ios : <https://apps.apple.com/td/app/vex-fitness/id1505518735>

Android: <https://play.google.com/store/apps/details?id=com.vex.fitness>

2. OHC (Overture Health Care) — Personal Health App

Cross-platform health monitoring application that ingests daily health metrics from Google Fit and Apple HealthKit, presenting insights through intuitive dashboards to support proactive personal wellness.

Live Url:

iOS: <https://apps.apple.com/us/app/overture-health-care/id1469870955>

Android: <https://play.google.com/store/apps/details?id=com.overture.healthcare>

3. TrackTreads — White-Label Enterprise Inspection App

Offline-first React Native inspection application for mining and construction equipment (GET & Structural components). Custom form-based inspection data is synced in real-time to the TrackTreads web application when online, with queued sync when offline. Supports multiple client brands via a white-label architecture.

Live Url:

Android : <https://play.google.com/store/apps/details?id=com.wearsurfacemanagement.tracktreads>

iOS: <https://apps.apple.com/in/app/tracktreads-inspections/id1438692138>

4. American Care -

Use the American Care app to have a list of your current medications and when they will be refilled or to quickly find when your next appointment is. All of your essential healthcare needs are now at your fingertips.
